A Card of Thanks.

Mr. Editor—Will you kindly permit me to thank, through your columns, all those who have so kindly assisted us with the bicycle drill.

I wish to thank especially the young people who have worked so hard and faithfully in getting up the drill and to assure them that we appreciate fully their generous efforts.

Brockmann's orchestra, the owner of the Banner warehouse, Mr. Mark, for lights free of charge, those who assisted us with advertising, and last, but not least, our daily papers, which have so kindly and generously kept the matter before the public; all these we desire to thank separately and individually.

And now, one word of apology for the seats. Every effort was made to get chairs, but none could be procured for love money and as a last resort the improvised seats had to be used.

Again thanking all who have helped us and the public generally for kindly interest, Very sincerely,
J. D. Miller,
Rector of St. Andrews.

Cost of Traveling on Bad Roads.

An illustration of the comparative cost of hauling over good and bad roads is furnished by C. E. Ashburn, Jr., in the Louisville Courier-Journal. The incident came under his own observation and the roads were in Kentucky. He says:

"A machine weighing 16,000 pounds was drawn four miles on the Brock turnpike, a macadamized road. It required four mules (4000 pounds to a mule), and one-and-one-half hours of time, at a cost of 15 cents per mule per hour, or a total cost of four miles of ninety cents.

"After traveling four miles on macadamized turnpike the route lay a little less than 2000 feet (less than two-fifths of a mile) on a dirt road. To travel this 2000 feet it was necessary to use ten of the best mules and seven men; and with this force it took nine hours to complete the journey. The cost was \$89.80, at which rate four miles would have cost \$208.08; or, in other words, \$208.08 is absolutely thrown away for want of a macadamized road."

Recruits in England.

THERE IS SUCH A LAW.

And it Should be Enforced or Else Repealed.

Communicated.
Dear Mr. Editor:—I notice with much pleasure that you are endeavoring to have all goods boxes kept from the sidewalks of our city. Several days ago you said something like this: "If there is an ordinance against such practice it should be enforced and if there is none there should be."

I had occasion recently to investigate this matter and found that there is an ordinance against having boxes, etc., on sidewalks, the penalty being a fine of \$5.00 upon conviction and \$5.00 for every day they are allowed to remain there.

The only reason that some of our citizens have not insisted on this law being enforced is an unwillingness to break the peace and harmony and friendly feelings existing between those who persist in this violation of our law and those who have to suffer the great inconvenience and annoyance of these obstructions. It does seem to me that men of clear judgment and integrity as these men are who are so thoughtless of others' rights as to allow their employees to continue this nuisance would not take advantage of this friendly feeling but would try to do their part to sustain it. However, patience sometimes ceases to be a virtue and if these gentlemen are soon called up and made to pay for their violation of this law and disregard for the rights of others they can blame no one but themselves.

Allow me, Mr. Editor, in this connection to assure you of my hearty appreciation of the efforts you are putting forth from time to time to have public abuses corrected and to build up and improve our city's interests. Your success in this direction shows how wisely you have planned.

I only hope you may be as successful in remedying the evil above referred as you have been with others.

Very truly yours,
Justice.

Will Be Ordered Out.

Raleigh correspondent to the Charlotte Observer says:

The general belief is that an order for the mobilization of the State Guard will be issued tomorrow. Nothing has been done as yet. Major Hayes is still in Washington, and the Adjutant General is not here. It is expected that as soon as the government calls for troops a mobilization will be made at Raleigh of North Carolina's quota. The present strength of infantry of the Guard is about 1750, according to the colonels' reports, while the quota to be called for it seems, is 2068. The statement is made that Gen. R. F. Hoke may be assigned to command of troops raised for home defense after the Guard is put into service. While there is intense interest here in war news, there is not the least excitement. Everything awaits tomorrow's developments.

Minister Woodford.

The Observer pauses amidst the activities incident to the war preparations, to repeat that while there is no public manifestation of admiration for him in any part of the country, its individual opinion is that nobody has borne himself any better throughout the whole business than Minister Woodford. In the first place he has done his best to preserve peace. After that it is to be said that he has behaved, at the Spanish capital, surrounded by hostile influences, with admirable dignity and fine courage. His situation at Madrid has been no less perilous than that of Gen. Lee at Havana, but through it all he has never lost his nerve nor said or done anything that called for any American to blush for him. Let us render honor where honor is due.—Charlotte Observer.

WOODFORD PARTY ATTACKED

Spanish Police Try to Capture a Member of the Legation.

FRUSTRATED BY THE MINISTER

At Valladolid the Train Was Stoned, Windows Were Broken—Protected by Civil Guards.

By Cable to THE TELEGRAM.

Hondays, Spanish Frontier, April 22—Minister Woodford and staff reached the frontier this morning after most exciting experiences at Valladolid where the train was attacked with stones. The Spanish police attempted to capture a member of the legation at Valladolid. Morono is the member of the legation singled out for capture. The attempt was made on the ground that he is a subject of Spain. The arrest was frustrated, owing to the presence of mind of the minister. The windows were broken and the civil guards were compelled to protect his carriage with drawn swords.

The Morono incident threatened to be serious. A desperate effort was made to capture Morono which was only prevented by Woodford blocking the carriage door and saying that it could only be removed by force. Police accompanied the detachment from Tolosa to San Sebastian, where the police officials left on seeing Woodford determined to maintain his rights. The party was greatly relieved when they left Spanish soil.

To Protect Capital.

Torpedoes and mines are being planted in the Potomac river below Washington. They are being put there as a safeguard in case of an emergency, and the exact locations of the mines are being kept secret. The majority of the work is being done by night, and is being pushed forward with an eye to the possible contingency of a hostile fleet attempting to shell the capital.

War Notes.

Senor Polo arrived at Niagara Falls yesterday afternoon. He refuses to be interviewed.

Consul R. M. Bartleman left Malaga for Gibraltar, yesterday.

A dispatch to the London Telegraph from Barcelona says that Spain's shortage of coal and provisions may bring hostilities to a premature end.

Mr. Balfour said yesterday that Her Majesty's government cannot lay down the principle that coal is contraband of war in the way suggested. It is frequently so, but not of necessity, or under all circumstances.

Olly citizen that he is, it appears now that Mr. Marion Butler may be caught between the upper and nether mill stones.

It is not correct to say that Mr. Caldwell sits as chairman of the railroad commission. Mr. Caldwell does not sit; he sets.

Already the lobbies at Washington are being thronged with men to fight the proposed war tax. Partisanship and sectionalism may disappear but the man who foots the bill will kick 'till the end of time.

Winston-Salem will henceforth draw on the Yadkin river for light and power. This will be of immense importance to the growth of the Twin-City. Greensboro must keep her eyes open and look alive or be distanced by her hustling neighbor.

The Anglo-Saxon is the only real humanitarian. He is the only man who will fight the battles of the weak. He is the surgeon of the world. He alone cuts out its cancers by the root. The United States is to fight Cuba's battles without reward or the hope of reward. The war will cost us more than the entire island is worth, but there will be one cancer the less.

The democratic party should keep the fact firmly in mind that to fuse with the populist party is to become a retroactive partner in all the shameful acts that have marked the elevation of that party to power. It cannot be urged that the republican party is more responsible for the bitter humiliation and disgrace of the state than is its populist ally. The further fact is also to be considered that if the democratic party accepts victory at the hands of Mr. Butler, it incurs thereby an obligation of gratitude that it cannot honorably disregard in the future. For the democratic party to fuse with the populist party means that it must share the odium of the past and take the chances of having unloaded upon it still greater odium in the future.

Nothing short of a miracle can now avert a war with Spain. It is unfortunate that the nations of the world are not so amenable to the dictates of reason and appeals of humanity that all disputes might be settled without appeal to arms. At the same time, since such is not the case, there are many evils more deplorable than war. To be afraid of war is one of these. The chances are always in these days of clashing commercial interests, fierce trade competition and changing boundaries that the United States will sooner or later be called upon to measure its strength with some first class power. It may be as well therefore for the country to find out its weakness in a struggle with a third rater. It may be for the best that the art of war should not be wholly forgotten. Our people however should not be too confident of an unbroken series of victories. War is a game of give and take.

There is the usual supply of leaky boats offered to the government at twice the value of a good boat. The Spaniards will be the very least of the trouble. The coal dealers, canned goods men, ship owners, et id omne genus, will be the most blood-thirsty of the nation's foes. After more than thirty years the nation is still suffering from the work of this contemptible gentry during the war between the states. Every mother's son of them would rejoice to see an American cruiser sent to the bottom if thereby he might dispose of one of his barnacled bottoms at five times its worth or furnish new outfits at a fabulous profit.

Harris Lithia Water of South Carolina.

Contains more Lithia than any other Lithia Spring Water on the market. If the Harris Lithia Water is not superior to any other water on the market, do you think the following noted physicians would state that it is? They have no interest in Harris Lithia Water:

Mr J T Harris, Proprietor Harris Lithia Springs;

Dear Sir—While it is contrary to my custom to give testimonials to remedial agents, I feel free to attest to the efficacy of the Harris Lithia Water (when used in large quantities) in the rheumatic and gouty diseases; in engaged states of the kidneys; in inflammation of the bladder, and in all cases where there is an excess of solids in the urine. Yours respectfully, GEO ROWE, M D

Mr. J. T. Harris:

Dear Sir: I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long-continued use of the same waters at home. Other

of my patients and friends are now using the water with best results. I cordially recommend it to all suffering from similar diseases.

Very respectfully yours, THOMAS S POWELL, M D, President Southern Medical College, Atlanta, Ga.

Asheville, N C, April 20, 1893

An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best, Lithia Waters known to the profession. In the condition of Phosphatic Urine its action is marvelous. Its use in the rheumatic and gouty diseases affords me more comfort than either the Buffalo or Londonderry waters.

Very truly yours, JOHN HEY WILLIAMS, M D

After a long and varied experience in the use of mineral waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of affections of the

kidney and bladder unequalled by any other water of which I have made trial. This opinion is based upon observation of its effects upon my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit in the medical maladies above mentioned.

A N TALLEY, M D
Columbia, S C, October 8, 1892.

The waters of the Lithia Springs are odorless, free from color, with a pleasant saline taste, rather palatable. When taken in considerable quantity, they do not nauseate, purge or produce any feeling of discomfort. I find from the analysis of the waters, they contain Chloride Sodium, Carb. Potash, Carb. Soda, Carb. Lithia, Carb. Iron and Sulphate Magnesia. These waters act directly on the mucous coating of the stomach and alimentary canal; they are powerfully alterative and tonic. They are everything to inflamed or irritated surfaces. They act upon the blood, changing it from acid to alkaline. In indigestion, catarrh of the stomach and gastralgia, supplemented with a proper diet, they

are a certain cure. The action upon the kidneys is marked. The sodium, potash, soda, lithia, are the best solvents of uric acid; all calculi of an acid character, whether literary or cystic, are steadily dissolved. I am confident that the profession will find it very useful in cases where this class of water is required.

J Q WILBUR, M D
Walterboro, S C, April 10, 1892.

Baltimore, June 24, 1896

J T Harris, Esq, Harris Springs, S C: Dear Sir:—I have been using Harris Lithia Water for some time, and I will say to you that it is my opinion that the Harris Lithia Water is by far the best Lithia Water that I have ever used, and that it has done me a great deal of good, and I think that it is a most valuable remedy.

R C HOFFMAN,
President S A L R R

Atlanta, Ga, Feb 24, 1897.

Mr J T Harris, Harris Springs, S C:

Dear Sir:—I have found Harris Lithia Water an exceedingly valuable remedy for persons suffering from

kidney and bladder troubles. Therefore take pleasure in recommending it.

Respectfully,
JAS F ALEXANDER,
President Board of Health

Mr J T Harris: Dear Sir—It gives me pleasure to say that I have been using your Lithia Water for several months past, and that I believe it to be one of the best Lithia Waters that I have come in contact with.

Yours truly,
EST JOHN,
Vice President

Charleston, S C, Sept 20, 1893

Mr J T Harris: My Dear Sir—I am constrained to send you this testimonial of the efficacy of the Harris Lithia Water. The value of the testimonial may be enhanced from the fact that it goes to you unsolicited. As a friend of humanity, I feel bound to withhold my knowledge of its virtues no longer. I have been using the water for more than a year with marked benefit. To any one troubled with kidney disorder

it is the remedy par excellence. I prefer it to the Buffalo Lithia Water.

Very truly yours,
A C KAUFMAN,
President Vanderbilt Benevolent Association of Charleston, S C

Chester, S C
Dear Sir—For the past six months I have been using Harris Lithia Water with the most excellent results, where I have been able to get my patients to drink a sufficient quantity of it daily. The carbonated has no equal in gastric disturbances. It is an excellent table water. It is a pleasant laxative and is a sure cure for flatulent dyspepsia.

S M DAVEGA, M D

Atlanta, Ga, April 20, 1897
I have used for some time Harris Lithia Water in my family, and also with my patients, and find it the best water I ever used in catarrhal condition of the ureters and bladder. It is also a good diuretic water.

G G ROY, M D

A Fair Proposition

We guarantee that one glass of Harris Lithia carbonated water will relieve any case of indigestion in one minute's time or money refunded, or if taken after each meal will cure the worse case of indigestion.

Graham, N. C., Nov. 23, 1898.
Mrs. Joe Person: Allow me to ex-
press my gratitude to you for the
wonderful cure your Remedy made on
my little daughter, some eight years
ago. She was afflicted with some
blood impurity which resulted in
boils and sores on her head, face and
neck, which troubled her severely and
continuously for 18 months, more or
less. After trying different remedies
for a long time without any perma-
nent relief, a friend advised me to try
your medicine. After a short use of
it she began to improve and when she
had taken about eighteen bottles the
sores and boils were entirely healed.
There has never been any return of
them, and she seems now to be entirely
well. I consider your Remedy one of
the very best blood purifiers on the
market.

Yours very truly,
J. H. WATSON.

May 6th, the Date.

We inadvertently stated yesterday that the Bugler Boy monument would be dedicated at the Battleground on May 10th. It should have read "May 6th," as that is the date. It is expected that a large crowd will be present. Please note it's correction and remember the date—Friday, May 6th.

Last Entertainment.

The entertainment to be given at the Normal College tonight, under the auspices of the two literary societies, promises to be highly an using and entertaining. The farce-comedy, entitled "The Boarding School," gives a burlesque of boarding school life and presents some ridiculous situations growing out of the North Carolina state guard being stationed in the neighborhood to protect the lives and property of the villagers from the raids of the Spanish invaders. A number of pleasing specialties will be introduced, including a Japanese lantern drill, songs, choruses, etc. Admission 50 cents to those not holding contra tickets. Hacks will run from court house.

Almost a Fire.

A bucket of ashes carelessly placed near the woodwork of the porch to the house on the corner of Mebane and Davis streets, came near causing a fire this morning about six o'clock. The house is occupied by Mr. Miller, of the steam laundry. Mr. C. L. Corl, who lives near, discovered the fire, ran over and tore the lattice work from the porch which was on fire. The damage was slight.

OPENING TOMORROW

Of the New Dry Goods Store of D. Bendheim & Sons.

Tomorrow is opening day of the new firm of D. Bendheim & Sons dry goods house, formerly the Guilford Department Store. Into the marts of trade have their buyers plunged, seeking far and near for the newest, daintiest, the most fascinating among the mighty volume of merchandise, that the opening of a new store demands, and now they have come back like conquerors, laden down with the plunder of their conquest, and tomorrow they will be ready to do honor to their victorious return, to pay meet homage to the grand selection they have brought, and we sincerely hope the people of Greensboro will turn out en masse to accord the new firm a hearty welcome.

Bicycle Drill Last Night.

The bicycle drill given by some of Greensboro's most popular young ladies and gentlemen last evening at the Banner warehouse was a most pleasant and successful entertainment. The figures were all very graceful and beautiful and were thoroughly enjoyed by the audience. While we do not wish to particularize, the trick riding by Mr. Norman Staples was one of the features of the evening and elicited much applause. The trick riding by Messrs. Wingate and Douglas was also of a high order. The feat fell from the back of Wingate was so well executed that the audience believed it an actual fall. The musical furnished by the Brockmann Orchestra was much appreciated. A number of persons have expressed a desire for the bicycle drill to be repeated. It is hoped that at some future date the young ladies and gentlemen will give the bicycle drill again.

PUBLISHED BY ODELL HARDWARE CO.

EDITORIAL.

We have a word to say to the merchants.

You work hard all day, think, plan, devise, buy and sell goods, employ clerks and for what?

Primarily that you may get money.

Is it a very wise plan that these hard earned dollars shall be dumped in a cash drawer to be paid out perhaps without any record's being made.

We have in use a "Cash Recorder" that beats any Cash "Register" that we have ever seen. We do not claim that it will prevent your being the victim of dishonesty, but it certainly reduces the chance for errors to a minimum.

It greatly facilitates the keeping of the cash account. A bookkeeper who cannot "keep his cash straight" with the aid of this machine should not be allowed to handle cash.

It will pay for itself in a month, in time, temper, wear and tear of the nerves and in actual money.

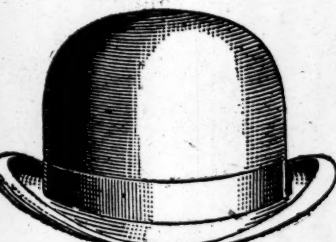

We are in a position to give you an inside price on it.
